

# Welcome to Window 4

As last window each Year Group has divided its year in to topics/themes which will begin with a key question to focus the children's learning. Children will be immersed in an exciting, cross-curricular learning journey filled with creative opportunities that challenge and inspire.

This window, our 'Big Questions' are:

- What do rocks tell us about the way the Earth was formed?
- Has Greece always been in the news?
- The meaning of Easter

Your child will be encouraged to find out about the 'Big Questions' at home, so please refer to the Home Learning Grids and, as always, please don't hesitate to come and speak to us about your child's work or any concerns you may have.
